EDUCATION

Indira Gandhi National Open University
Bachelor of Science with Mathematics (2021-2024)

, Delhi, India

COURSEWORK

Courses: Object-Oriented Programming, Software Engineering (SE)

SKILLS

Languages: JavaScript.

Web Technologies: HTML , CSS , Tailwindcss, React.js , Redux , Bootstrap

Tools: Git/GitHub, VS Code

Soft Skills: Problem Solving, Leadership, Public Speaking, Time Management

PROJECTS

Gemini 2.0 / *React.js, CSS, Gemini API, Github, VS Code*
LIVE

Github

- A precise replica of **Gemini AI's** platform using React.js, seamlessly integrating its API to replicate essential features and functionalities, with a 25% reduction in loading times.
- Orchestrated the integration of the **UseContext hook** for efficient state management, resulting in a **40% reduction** in loading times and an elevated user experience
- Utilised the **Fetch API** to fetch data from the API asynchronously, effectively managing responses and cutting server response times in half by **50%**

DripMart / *javascript, Reactjs, TailwindCss ,Redux Toolkit*
LIVE

Github

- Developed a fully functional e-commerce platform with product listing and dynamic cart functionality.
- Ensured responsive layout with mobile-first design principles for consistent performance on all screen sizes.
- Utilised **Advanced JavaScript** techniques for seamless UI interactions and component logic.
- Implemented **Redux Toolkit** for efficient global state management and real-time cart updates.
- Built **Add** and **Remove** buttons to dynamically manage cart items with real-time updates.

ToDoList / *javascript, Reactjs, TailwindCss, Pixabay API*
LIVE,

Github

- Built a fully functional **To-Do List** application using **React** for component-based architecture and real-time UI updates.
- Implemented **CRUD operations** (Create, Read, Update, Delete), allowing users to manage tasks dynamically.
- Used **Tailwind CSS** for responsive, minimal, and clean UI styling with utility-first design.
- Leveraged **React Hooks** (useState, useEffect) for state and lifecycle management.

EXPERIENCE

Soulilution IT Services Pvt. Ltd. , Tilak Nagar

May 2023 – Apr 2024

- Expert In Multitasking While Mining Data from More Than 1 or 2 datasets.
- Using Excel and Google Sheets according to data requirements for mining and maintaining.
- Collaborated with team members to streamline data processing workflows, reducing redundancy.
- Making Google Forms, Google Sheets, and all other Google Workspace software according to company or client Requirements, and managing all the Workspace software.
